Dr. Reddy's Recalls Prescription Drug Blister Packages Due to Risk of Poisoning

The products are prescription medications that were labeled and distributed by Dr. Reddy's for institutional use only. The prescription medications were distributed by third party wholesalers to retail pharmacies and could have been dispensed to consumers. The packaging of the products is not child resistant and can pose a risk of poisoning if the contents are swallowed by young children.

Remedy:

Consumers should immediately store the recalled medications in a safe location out of reach of children and contact Dr. Reddy's for a full refund.
