**Phone:** (855) 654-0942

MAY 26, 2021

### JCPenney Recalls Girls Puffer Jackets Due to Entanglement Hazard

The puffer jackets have a drawstring located inside the lining of the bottom area of the garment. The drawstring can become entangled or caught on playground slides, handrails, school bus doors or other moving objects, posing an entanglement hazard to children.

**Remedy:**

Consumers should immediately take the recalled jacket away from children, cut and remove the drawstring to eliminate the hazard, or contact JCPenney for instructions on how to return the jacket and obtain a full refund of the original purchase price, shipping included.

**Units:**

About 3,700

Consumer Contact:

**Williams Advanced Materials & Chemicals Recalls Three Chemical Products Due to Failure to Meet Child-Resistant Packaging Requirement and Violation of FHSA Labeling Requirement (Recall Alert)**

The products Sodium Hydroxide, Heptane, or Naphtha must be in child resistant packaging, as required by the Poison Prevention Packaging Act (PPPA). The packaging of the products is not child resistant. The sodium hydroxide poses a risk of chemical burns and irritation to the skin and eyes. The heptane and naphtha pose a risk of eye, nose and throat irritation, headache, lightheadedness, dizziness, lack of coordination and loss of consciousness. In addition, the label on the products violates the Federal Hazardous Substance Act (FHSA) by omitting mandatory information on the packaging.

**Remedy:**

Consumers should immediately store the recalled products in a safe location out of reach of children and contact Williams Advanced Materials & Chemicals for a free replacement child-resistant cap and label. Williams Advanced Materials & Chemicals is contacting all purchasers directly.
