

THIS WEEK 2-6 AUGUST 2021

DRIVER EXPERIENCE

I was 19 and assigned as the commo platoon sergeant driver as my unit prepared to head out for annual training. I had very little driving experience, only receiving my civilian license the morning of the movement. While I'd operated some Army vehicles and taken military driver familiarization training, I'd never driven anything a significant distance. This would be my first encounter with traffic, rain, speed and nerves.

BREAKING THE CHAIN

My understanding of accidents is simple. Each one is a caused occurrence — a chain of events leading to an end result. From beginning to end, the events are connected like links in a chain. If at any time a link is broken, the accident is prevented.

FIGHTING COMPLACENCY

Regardless of your MOS, never become complacent, do what you are trained to do, and always communicate your actions to your fellow crewmembers. Doing so could mean the difference between a successful mission and a catastrophic mishap.

PRODUCTS & TOOLS

Learn the safety culture and climate within your organization.

A family of information technology systems that underpins the Army Safety and Occupational Health Management System.

Great resource for finding a local riding association, and learning to be a safer rider.

An interactive, easy-to-use, automated system designed to assist users with the application of risk management.

Make your Soldiers aware of the off-duty hazards they'll face with the Off-Duty Safety Awareness Presentation.

A collection of resources to aid commanders and leaders in the management of range operations and safe weapons handling.

DID YOU KNOW?

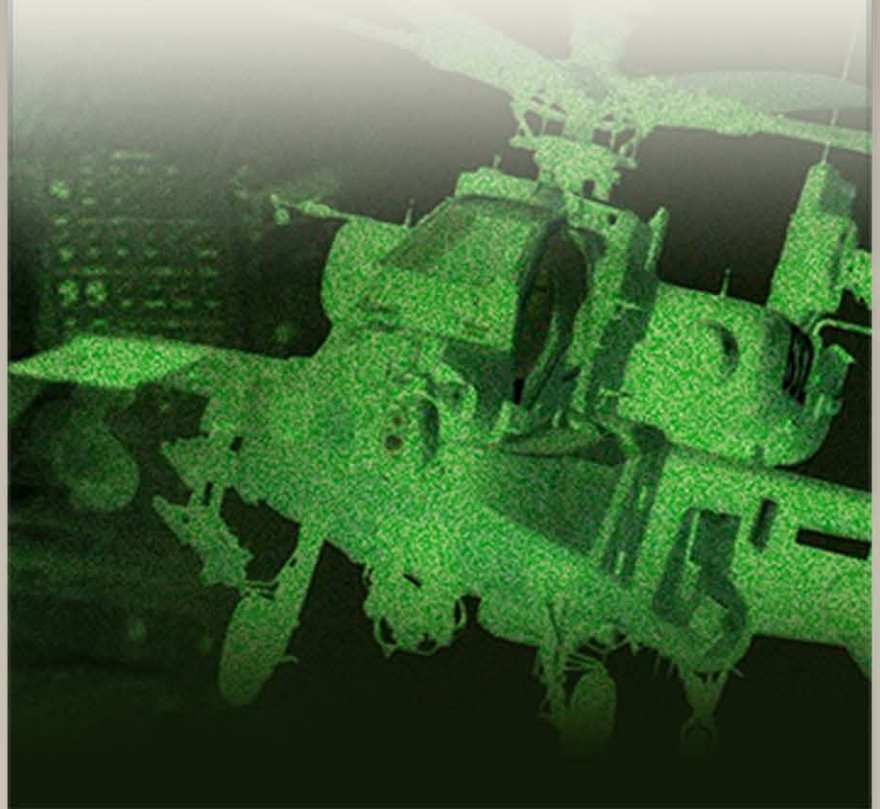

Attending training annually allows us to continually refine our skills and maintain good habits while preventing the development of bad habits. [Click here to learn more.](#)

WHAT'S NEW?

CREW MIX MATTERS

Crew mix plays a big part in flight planning and should never be taken lightly. [Click here to read more.](#)
